

Horizon Europe Brokerage Event Cluster 6 Calls 2024

Brussels, 26 September 2023

Safe environment

Elžbieta Jankovska -Bortkevič Nature Research Centre

This project has received funding from the European Union's Horizon Europe research and innovation programme, under Grant Agreement No 101059839

Lithuania

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Commission. Neither the European Union nor the granting authority can be held responsible for them.

Cluster 6 Brokerage Event

Brussels, 26 September 2023

Topic addressed :

• HORIZON -CL6-2023-BIODIV -01-3: Interdisciplinary assessment of changes affecting terrestrial and freshwater ecosystems, building on observation programmes

Other topics of interest:

- HORIZON -CL6-2024-FARM2FORK-01-4: Climate change and food safety: effects of climate change on food safety across food systems
- HORIZON -CL6-2024-FARM2FORK-01-8: Preventing and reducing food waste to reduce environmental impacts and to help reach 2030 climate targets
- HORIZON -CL6-2024-CLIMATE -01-4: Land use change and local / regional climate
- HORIZON -CL6-2024-GOVERNANCE -01-5: Customisation/pre-operationalisation of prototypes end-user services in the area Climate Change Adaptation and Mitigation
- HORIZON -CL6-2024-GOVERNANCE -01-10: Organic farming thematic networks to compile and share knowledge ready for practice
- HORIZON -CL6-2024-BIODIV -01-1: In va sive a lien species

Cluster 6 Brokerage Event Brussels, 26 September 2023

Project idea

- The impact of the power transmission lines on the health of human and other organisms has been of interest since the middle of the last century.
- Still their exact damage to the environment is not clearly known and this causes public concern.
- A consortium needs to be created to assess the effect of power transmission lines on the condition of the biodiversity and ecosystems.

Cluster 6 Brokerage Event Brussels, 26 September 2023

Main expertise offered / sought

- Nature Research Centre develops fundamental and applied research by accumulating, summarizing and disseminating new knowledge in the field of natural sciences, which is necessary for ensuring the knowledge and protection of ecosystems and sustainable use of resources to meet the needs of society.
- Role in project: coordinator
- The requirements for additional partners:
- Human and animal health effects studies,
- Air pollution studies,
- expertise in applications for Horizon Europe funding, setting up consortia and managing the projects.
