Entdecken, wie ich das Horizon Dashboard benutzen kann, um...

- ... mehr über meine eigene Einrichtung in Erfahrung zu bringen
- ... mehr über deutsche Beteiligung in der EU-Forschung in Erfahrung zu bringen
- ... mehr über potenzielle Kollaborationspartnern in Erfahrung zu bringen
- ... Partner für mein Vorhaben zu finden
- ... in Erfahrung zu bringen, welche thematisch-relevanten Vorhaben die EU schon fördert (z. B. für Kapitel 1.2 (Punkt 2) des Antrags; um Redundanz zu vermeiden)
- ... die Anforderungen aus dem Topic zu adressieren (z. B. ‚Synergien‘ mit bestimmten Projekten erzeugen)
- ... als Ressource bzw. Datenquelle für eigene Forschung bzw. Veröffentlichungen zu dienen

Cooperation between NCPs for Horizon 2020 Societal Challenge 2 on “Food Security, Sustainable Agriculture and Forestry, Marine, Maritime and Inland Water Research and the Bioeconomy” and the Key Enabling Technology - Biotechnology

Fact Sheet

News & Multimedia

Objective

The overall idea of the BioHorizon proposal is to establish innovative and mutually learning pan-European platform for transnational activities of NCPs involved in the SC2 and KET-B. The aim is also to create a network of NCPs exploiting the synergies of acquired and distributed knowledge, collective development and trainings, in which all NCPs can learn from each other, thus increasing mutual understanding of different approaches and requirements in the daily work of an NCP. The network will develop novel, high quality services provided to SC2 and KET-B beneficiaries. The excellent assistance provided by BioHorizon will go beyond typical NCP services, since the established network will put an emphasis on complex and multidisciplinary aspects of Horizon 2020, including widening participation of the EU 28. The methodology applied to achieve the objectives includes: trainings, workshops addressed at NCP needs identified during the evaluation of current activities, networking staff exchange programme, e-mentoring scheme and trans-national brokerage events. Furthermore, based on the results of the previous project, the new BioHorizon will greatly improve and enhance capacity building and networking opportunities by continuing with activities and measures proven to be successful, but also including new elements. BioHorizon will fully cover activities that include innovative and efficient training of NCPs across Europe, thus helping to simplify and increase access to H2020 calls, lowering barriers for newcomers and improving the quality of proposals submitted. Special attention will be given to networking and improved collaboration of the ICPC NCPs, supporting and increasing their integration with the European NCPs. BioHorizon aims to generate high impact on different levels: improvement and professionalisation of NCP services, higher number and higher quality of proposals submitted through the establishment of an active network of SC2 and KET-B NCPs at European level.
