Horizon Dashboard

Aus Oxford Dictionary

Dashboard

„A graphical summary of various pieces of important information, typically used to give an overview of a business.“

Horizon Dashboard

App, die Möglichkeiten bietet Vertragsdaten und (kumulierte) Antragsdaten aus dem EU Forschungsrahmenprogramm mit unterschiedlichen Filtern zu belegen, zu visualisieren oder zu exportieren

Datenbank wird häufig aktualisiert

Welche Daten kann man abfragen?

- Vertragsdaten (angenommene Projekte nach Vertragsabschluss mit der Kommission) und Antragsdaten (in kumulierter Form)
- Daten zu teilnehmenden Organisationen
- Welche Projekte in einem bestimmten Topic zur Förderung kamen
- Projektergebnisse (z.B. Publikationen und Patente)
- Länderprofile
- u.v.m.

Für später... verwendete Symbole in Screenshots

↖ = **Anklicken**

□ = **Aufmerksamkeit hierauf richten**

Hinweis: das Horizon Dashboard ändert sich ständig, eventuell werden die Screenshots in einigen Monaten nicht mehr genau mit dem Dashboard übereinstimmen. Die Logik dahinter ist aber seit vielen Jahren unverändert.

Horizon Dashboard: Wie kommt man hin?

Variante 1: „**Horizon Dashboard**“ als Suchbegriff, führt zu:

The screenshot shows the Horizon Dashboard website with several annotations:

- A red box highlights the "Organisation Profile" button in the "Organisation Profile" section, with the text "„Herzstück“" (core piece) next to it.
- A yellow box highlights the "Country Profiles" button in the "Country Profiles" section, with the text "„nice to have“" (nice to have) next to it.
- Yellow arrows point from the "Organisation Profile" button to the "Specific aspects" text in the "Country Profiles" section.
- Yellow arrows point from the "Country Profiles" button to the "Country Summary fiches and success stories are also available on the Europa website." text in the "Country Profiles" section.

The website content includes:

- Implementation figures:** Overview on evaluated proposals (incl. success rates) and detailed statistics and data on funded projects and their participants in EU R&I programmes.
- Country Profiles:** Find out more about country-specific performance in EU R&I programmes: funding received, participations by region, top beneficiaries, collaboration with other countries, SME participation and more - all the information at your fingertips!
- Organisation Profile:** Find out more about the performance of an organisation participating in EU R&I programmes: its projects, the amount of EU funds received, its collaborations.
- Project Results:** This section presents information on results of funded projects, notably Intellectual Property Rights (IPRs) and scientific publications.
- Information and tutorials:** Horizon Dashboard Quick Guide, FAQ, What is Horizon Dashboard?, How to explore country profiles?, Webinar on Key Features (25 March 2020), How to see H2020 participants?, How to see SME participation in H2020?, How to see Third Country participation in H2020?, How to find details about specific H2020 participants?.
- News:** 06 May, 2022. Listen to the series of e-pitching events in partnership with Angel Investors. The 'Angels Week' is now available on HRP TV! The series of e-pitching events highlight innovative research companies from the Horizon Results Platform that address the EU Missions. You can listen to pitches from startups working to help the world adapt to climate change, beat cancer, restore our oceans and waters, and deliver 100 smart cities by 2030.

HORIZON 2020 Linking East and West African farming systems experience into a BELT of sustainable intensification

Fact Sheet Results

Project description

DE EN ES FR IT PL

Sustainable farming in East and West Africa

Marginal land is land that is of little agricultural value because crops produced there would be worth less than any rent paid for access to the area. Helping to develop such zones in Africa is a key goal for the EU-funded EWA-BELT project. The aim is to promote the sustainable intensification of agricultural production in organic, agroforestry and mixed crop and livestock farming systems in 38 study areas of six countries belonging to East and West Africa. The project will enhance current scientific knowledge on the adaptation of new and improved traditional crops in different agroecosystems and the impacts of traditional agricultural practices on soil health.
